

Google Nest Protect

There's never been a smoke alarm quite like Nest Protect. It knows the difference between fast-burning fires, smoldering fires, and carbon monoxide. It speaks up when there's a problem, can be hushed from your phone, and sends an alert in case you're not home. It's the smoke alarm that provides peace of mind.

Power

Battery:

- Six long-life AA Energizer® Ultimate Lithium batteries

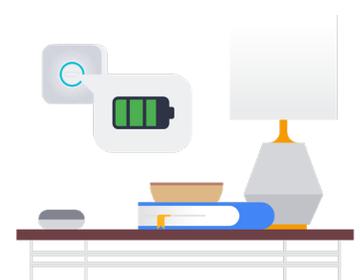

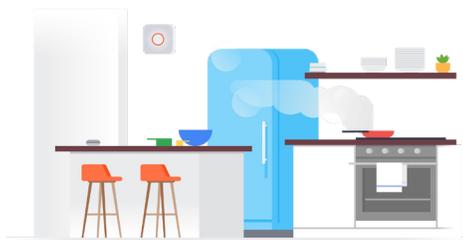

Wired:

- 120 V connector

Feature Highlights

- Split-Spectrum Sensor
- Heads-Up alerts
- Self Test
- App Silence

Top features

Smarter sensors

Most alarms only sense one type of smoke, but Nest Protect has:

- A Split-Spectrum Sensor that detects smoke from a variety of fires.
- A carbon monoxide sensor that detects dangerous, invisible CO.
- The ability to tell you exactly what and where the danger is.

Clear warnings and alarms

Nest Protect keeps you safe and puts you in control, with:

- Spoken alerts and color-coded lighting that's easy to understand.
- Phone alerts that let you know when something's wrong at home.
- App Silence, which lets you hush your alarm with the Nest app.

Intelligent and thoughtful

Nest Protect reimagines what smoke alarms can do, by:

- Working with other Nest Protects to alert you throughout your home.
- Self-testing 400 times a day, and quietly checking its horn monthly.
- Knowing steam from smoke, which reduces false alarms by over 50%.

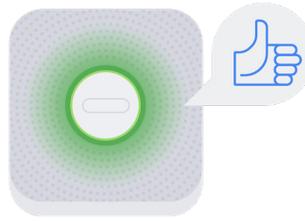

Top features (cont'd)

Activity reports and helpful info

The Nest app keeps you informed, with:

- Protect History — a 10-day summary of Nest Protect's activity.
- Nest Home Report — a detailed, monthly inventory of Nest Protect's events.
- Emergency video clips of your home, when you have a compatible Google Nest Cam.

Non-emergency assistance

Nest Protect proactively watches out for you, with:

- Pathlight — a white light that helps guide your way in the dark.
- Nightly Promise — a signal that your sensors are working.
- What To Do — safety tips that proactively prepare you for an emergency.
